You can't create sleep
force sleep
make sleep

You have to allow sleep.

You can't create happiness
force money
make joy
require fun
invent a breath

You must allow them.
you will never know them.
you will just use them and be used by them.

Quit trying to create it
allow it
let it be

Not make it be.
let it be.

it.

POEMTRY & ODDE: Copyright 1995 by Philip E. Friberg, Clown Prince, Wizard Corporation of America, Important Stuff Division, There are many 'know it all's', but nobody "knows all it". It is infinite, which by definition can not be defined, so there is no such thing as "by definition" of it. Doesn't that be all. Of what? Of it. It Works. Give it a chance. Be with it. Be it. Be in it. Be without it? Nope. It is infinitely everywhere so you can't be without it. Just be and it will be okay. It is. Yes. Yssssssssssssssssssss. Yup.
